Public Comment:
- Nathan Nesgoda: 1390 Torgeson Road is on a private portion of the Torgeson road that is not maintained by the township. Water from township ditches and culverts is flowing down the road damaging the private portion of the road. That part of the road is also the only access to the Alger Grade so hunters are damaging the road. To have the township maintain the road the road and culverts must be brought to current road standards and a turnaround for County plowing must be created at the end of the road. It was also recommended the home owners contact the County for a maintenance discussion of the Alger Grade access.
- George Sundstrom: At their last meeting the Homesteaders passed a motion that the Township should hold some sort of recognition for the years Don McTavish put into working for the Township.
